

GOLDEN GATE FRACTIONAL TIME COMPARISONS

Shown below is the order of finish that would be likely if each horse repeated a representative race. There are many reasons why this may not happen. Foremost of these is that, like humans, horses have good and bad days. Also, today's race may differ from the representative race due to changes in post position, weight carried, class, track, surface, pace characteristics, etc. Nevertheless, plotting and studying times from previous performances is a basic part of handicapping. If the representative race was not on a normal track, the times shown have been adjusted by the track variant applicable. The underlined fractions indicate the leader(s) at that particular point in the race. Except for the LF = Last Fraction, which indicates the fastest closer(s). X = No recent or available time at or about the distance. The date of the selected race is shown preceded by a letter indicating which track (A = Aqueduct, B = Bay Meadows, BE = Belmont Park, CA = Calder, CD = Churchill Downs, D = Del Mar, E = Emerald Downs, F = Fairplex Park, FG = Fair Grounds, FN = Fresno, G = Golden Gate, GP = Gulfstream Park, H = Hollywood Park, KEE = Keeneland, L = Los Alamitos, LS = Lone Star, M = Monmouth, P = Pleasanton, S = Santa Anita, SC = Sacramento, SA = Saratoga, SK = Stockton, SO = Solano, SR = Santa Rosa, T = Turf Paradise, TP = Turfway) and followed by a number indicating how many races back it was.

Sunday, June 19, 2005

(Closing Day of the 29-Day GOLDEN GATE Meeting; Ending June 19, 2005)
