The Track, Date of Race, and Race Number

Where do I find these?

Each horse in Today's Racing Digest has Data Lines (Data Lines are where all the horse's race information is listed) that are located in the lower portion of each runner's "Data Box."

Located on the far left-hand side of the Data Lines is the track (TRK), as well as the date and race number (DATE&RACE) for each of the horse's past six races. Chronologically, the races are listed in descending order beginning with the most recent.

Track (TRK) is simply a listing of the track at which the race occurred.

Today's Racing Digest uses acronyms for tracks, such as HOL (Hollywood Park), SA (Santa Anita), DMR (Del Mar), GG (Golden Gate), etc.

The Date of the race is located to the right of the track.

The format is month/day/year.

The Race Number is listed to the right of the date, separated by a hyphen.

Jungle Prince

(J.Garcia/D.Flores = 8 0-3-0)

was likely just prepping in the King Glorious on the main track when 4th June 13, his first start since winning the Grade III Hollywood Turf Express in 2006. The 7-year-old has won three of four starts over this course and has been working strongly since raced. He merits respect.

CANTEEN

Canteen's most recent race occurred at the track HOL (Hollywood Park) on May 16, 2008 (5/16/2008-5) and competed in the 5th race (5/16/2008-5) on the day. Remember, the Race Number is separated from the date by a hyphen.

Important! Understanding the basics of where a horse competed, when, and in what race allows the handicapper to determine how long the horse has been away (called "recency," which is related to fitness) and whether or not he's run well over the track in the past.
