Race Type and Race Conditions

What were the conditions of a horse's previous race? The Digest provides that information for each horse's last six races under the Data Line header RACE/TYPE and RACE/CONDITIONS.

There are many different types of Race Types, including Claiming (CLM), Allowance (ALW), Optional Claiming (OCL), Stakes (STK) and Handicaps (HCP), as well as Maiden (MDN) and Maiden-Claimers (MDC).

Race Conditions, which are listed to the immediate right of Race Types, are numerous as well, and distinguish similar Race Types from one another. For instance, there are many types of Handicaps (HCP): Some may be listed as Grade I (G I), the best races on the grounds, Grade II (G II), a cut below Grade I, or as a restricted Handicap, such as a race where horses who have not won a Stakes may only enter (NW-STK).

Tent (J.Cassidy/D.Flores = 52) Weekly By Cadeaux Geneurex
 just missed with this kind June 6. He has run well in two of his last three races and is being considered for the stretch April 11. Rank early and lacked stretch, lacked racing room and steadied when shut off between horses in the stretch and moved-up to 3rd via the Dq Feb 23.

 has won two straight and was most impressive daylighting bottom-level Allowance foes June 8. That last win tops the charting by a large margin, so he appears the one to catch and beat.

Tent

Let's take a quick look at the type of races and the conditions of those races that Tent has raced under.

What type of race (RACE TYPE) did Tent race in at Hollywood Park on June 6, his most recent race? It was an Allowance, as noted by the ALW designation. The conditions of the race (RACE CONDITIONS) were NW3 or "non-winners of three races." The June 6 Allowance that Tent competed in was restricted to horses who had not won three races.

How about Tent's Feb 2 race at Santa Anita? It was a Handicap (HCP). The Race Conditions for this Handicap simply list the purse of \$75+ (\$75,000 added). It's a race open to anyone with a purse of \$75,000.

Race Conditions for Race Types

Allowance (ALW): Non-winners of three (NW3), Non-winners of two (NW2), etc.

Optional Claiming (OCL): Non-winners of three or Claiming price \$62,500 NW3/CLM 62.5), Non-winners of two or claiming price \$40,000 (NW2/CLM 40), etc.

More traditional Starter Allowance races are restricted to horses who have raced for a certain claiming price within a given period of time. These Starter races list the claiming price needed to have started for in order to have qualified for the race, such as \$4,000 (4.0), \$12,500 (12.5), etc.

Maiden (MDN): "Straight" Maiden races have no conditions unless they are restricted to state-breds, which are designated as "s" under the Race Conditions heading.

Maiden-Claiming (MDC): \$50-\$40,000 (50-40), \$32-\$28,000 (32-28), \$25,000 (25.0), etc.
