Just like all of Today's Racing Digest's proprietary data these performance ratings are based on our exclusives track pars and then adjusted by the daily track variant. This allows you to easily compare performance ratings regardless of the track or race conditions.

FIRE Earned: Comprehensive Speed figure based on speed throughout the entire race taking into account every point of call. (Based on 100

CPR Earned: Based on pace, final time and closing fraction. It is then modified by the track variant and may be adjusted for an 'unusual' pace

PACE RATING: Takes into account the first two calls in a sprint and the second two calls in a route. It's an assessment of a horse's early speed or pace. (Based on 150 Par)

FINAL TIME RATING: Only considers the final time the horse earned and then measures that against our track pars. (Based on 150 Par)

Race Class Level: a number assigned to a certain type of race that represents its position relative to other races. (Range 75 - 210) (5 points = 1 Class Level)

Average For the Level: "Par times" for today's class of runners. In other words, they are the average times run by horses at the particular class level.

Actual Times This Horse Ran: Today's Racing Digest converts traditional past performances that use lengths off the leader to determine position in a race to actual times allowing us to more easily compare past performances. In our daily publication we then adjust those times based on our track pars, variants, and class levels to provided a projected time the horse is expected to

Just like all of Today's Racing Digest's proprietary data these performance ratings are based on our exclusives track pars and then

FIRE Earned: Comprehensive Speed figure based on speed throughout the entire race taking into account every point of call. (Based on 100

CPR Earned: Based on pace, final time and closing fraction. It is then modified by the track variant and may be adjusted for an 'unusual' pace.

PACE RATING: Takes into account the first two calls in a sprint and the second two calls in a route. It's an assessment of a horse's early speed

FINAL TIME RATING: Only considers the final time the horse earned and then measures that against our track pars. (Based on 150 Par)
