K = Thousand NW = Non-Winners Md = Maiden Cl = Claiming

DEDUCT 5 points for all 'non-winners since...' claiming races (6.26nw-1/24, etc).

RATE all 'Non-winners-of-two-lifetime>a specified claiming price' (25nw2>12.5, etc) at the 'greater than' claiming price. In this example, the race would be equal to a \$12,500 claimer.

DEDUCT 15 points for 'non-winners of two lifetime' claiming races for older (6.25nw2, etc.) and 10 points in 3-year-old-only claimers.

RATE all Classified Handicap and Starter races 10 points higher than the claiming price specified in the conditions.

*In order to be consistent with our Southern California and out-of-state RCL charts, Today's Racing Digest will print quarterly RCL charts instead of one for each meeting. With each new RCL chart during the year, the RCL's for the 3-year-old and 2-year-old races will go up incrementally, reflecting the maturation process of young horses.
