<b><u>Win Bet</u></b>	<b><u>Begin Range</u></b>	<b><u>End Range</u></b>	<b><u>Bypass Criteria</u></b>
<b>ML Odds</b>	6.00	20.00	
<b>TA Ratio</b>	1.00	3.00	
<b>TA Rank</b>	1	2	

Horses satisfying these criteria have been underlined in the report.

**PARX RACING 11/29/22 Race No. 3**

---

**TA Live Long Shots Definitions**

**ML Odds** The morning line odds are created by the track's professional handicapper. They are what the local handicapper believes should be the odds of the horse in the race, based on their professional analysis

**TA Indicator** The TA Indicator is exactly that, a single number that indicates how well the horse is expected to perform in the current race based on historical information. Usually this is a number between 70 and 100. The rating is determined by analysis of the past performances for each horse as well as a comparison of current race types. The Thoroughbred Analytics process calculates over 40 factors for each horse. These are then combined using proprietary statistical techniques to arrive at a single indicator for each horse. TA Indicator may include the analysis of over 40 factors calculated for each horse including:

- Race
- Surface
- Workout Times
- Bullet Works
- Lengths Gained
- Class
- Jockey Efficiency
- Speed
- Pace
- Post Position
- Distance
- Trainer Efficiency
- Workout Distance
- Horses Passed

**Note: TA Indicators are calculated for a specific horse entered in a specific race and condition and should not be compared across races.**

**TA Rank** The TA Rank lists the horse with highest to lowest TA Indicators. The horse within each race with the highest TA Indicator has a TA Rank of 1. The horse with the second highest TA Indicator has a rank of 2, the third highest TA Indicator has a rank of three and so forth for each horse in the race.

**TA Ratio** The TA Ratio is one of Thoroughbred Analytics most powerful tools. This represents a horse's overall relative strength or weakness compared to all other horses entered in the race. The TA Ratio is the TA Indicator of each horse divided by the average TA Indicator of all horses entered in the race.

- If the TA Ratio is greater than 1.00, this horse is expected to perform better than the average horse in the race. The more the ratio is over 1.00, say 1.15, then the stronger the horse is relative to the field.
- If the TA Ratio is less than 1.00, this horse is expected to perform more poorly than the average horse in the race. The more the ratio is less than 1.00, say 0.85, then the weaker the horse is relative to the rest of the field.

**PARX RACING 11/29/22 Race No. 3**

**Race Number 3 CLAIMING 1 Mile 70 Yards Dirt (North East), Local Post Time (approx.) 12:49pm**
